WARM - UP

Since the Meeting

가벼게 — 근황과 그 회의 뒤에 무슨 일이 있었는지.

“How has the factory been since we last talked?”

공장 근황부터 — 자유 대화

“After that meeting with Autry — what happened next?”

그 회의 뒤 실제 흐름을 훑아보기

“Did you send them something, or talk it through on a call?”

보고 형식(메일/콜) — 오늘 롤플레이의 설정으로 연결

The Story So Far

먼저 지금 영어로 — 회의 뒤에 실제로 무엇을 했는지 처음부터 끝까지.

“So — walk me through what you did after that meeting.”

What you checked

무엇을 확인했나 — 라인, 장비, 공정

What you found

원인은 무엇이었나

What you changed

무엇을 바꿨나 — 설비·절차·사람

What you told Autry

언제 어떻게 알렸나

Brian listens — and takes notes on where you get stuck. That's our shopping list.

Reporting Back

약속한 보고로 엽니다 — 원인부터, 변명 없이.

- 1 As promised, ~** — 약속드린 대로 —
"As promised, here's what we found."
- 2 We got to the bottom of ~** — ~의 원인을 끝까지 찾았습니다
"We got to the bottom of the uneven finish."

- 4 ~ came down to ~** — 결국 ~ 문제였습니다
"The whole thing came down to one setting."
- 5 We've already ~** — 이미 ~해드립니다
"We've already adjusted it and examined every insole from that lot."

1번이 문을 여는 한 마디 — 금요일 약속을 기억하고 있다는 신호입니다.

Rebuilding Trust

재발 방지를 보여주고, 다음 기회를 요청합니다.

6 **Going forward, every ~ will be ~** — 앞으로 모든 ~는 ~됩니다
"Going forward, every batch will be checked twice."

7 **run a full check on ~** — ~ 전수 검사를 하다
"We ran a full check on the rejected lot."

8 **You have my word that ~** — ~는 책임지고 약속드립니다
"You have my word that this mistake stays fixed."

9 **If anything comes up, ~** — 뭐가 생기면 ~
"If anything comes up, you'll hear it from me first."

10 **We'd like a chance to ~** — ~할 기회를 주시면 좋겠습니다
"We'd like a chance to win back your confidence with the next shipment."

8번은 크게 쓰면 가벼워집니다 — 한 번, 확인한 것에만.

Report Mode

Brian이 Autry 담당자 — 금요일의 그 콜입니다.

“Hi Zini — you said you'd have something for us by Friday. What did you find?”

Flow guide

As promised → 원인 (got to the bottom / turned out / came down to) → 조치 (already / full check) → 재발 방지 (going forward / my word) → 다음 (if anything comes up / a chance to)

Follow-up jabs

“How do I know it won't happen again?”

“Why didn't your check catch it the first time?”

“If the next batch has one bad pair — then what?”

This isn't practice — this is the call you'll actually make.
