OLIVIA · CLASS 5

The Hoop, One More Time

Your video, what you already told me, and a second take.

DO ENGLISH WITH BRIAN

WARM-UP · 5 MIN

Finals start tomorrow.

Three quick ones.

1 Which subject is first?

English. History and science. (Kinetics -> 운동역학 / Potential energy -> 위치 에너지)

2 Do you start early, or do you procrastinate?

I used to start early.

3 Do you overthink before a test?

I remember in 2 years ago when I had my first final exams. Before that, I had tears on my eyes because I was very nervous.

YOUR VIDEO · 7 MIN

What worked.

This is exactly what you said. Three things already work.

I wondered why people don't take action to protect the environment even though they know they should. So I ran a survey about students' awareness of climate change and their actual climate actions, and designed a recycling bin **shaped like a basketball hoop**. Many students who tried the new recycling bin said that they actually enjoyed recycling more than before and it was easy for them to recycle voluntarily. What I learned from this experience is that creating the environment that makes people take action easily is much more important than just forcing them to do it.

1 **You start with your own question**

"I wondered why…" — 소개가 아니라 궁금증에서 시작해요

2 **We can see it**

"shaped like a basketball hoop" — 듣는 사람 머리에 그림이 그려져요

3 **Four clear steps**

question → what you did → what happened → what you learned

YOU ALREADY SAID THIS · 10 MIN

Pick two. Where do they go?

Your video on the left. Your own words from Class 3 on the right.

I wondered why people don't take action to protect the environment even though they know they should.

1 ____

So I ran a survey about students' awareness of climate change and their actual climate actions,

2 And 40 students answered. / which I managed to get survey answers from 40 different students

and designed a recycling bin shaped like a basketball hoop.

3 It was because many of them said: if there is a fun way, it would be easier to recycle.

Many students who tried the new recycling bin said that they actually enjoyed recycling more than before and it was easy for them to recycle voluntarily.

4 ____

What I learned from this experience is that creating the environment that makes people take action easily is much more important than just forcing them to do it.

FROM CLASS 3 · YOUR WORDS

A 40 students.

B Most of them know climate change is serious — but they don't recycle properly.

C Many of them said: if there is a fun way, it would be easier.

D Before, the recycling site was in the basement, and it was tedious.

Pick two cards. Tell Brian the number — he types it in.

LAND THE LAST LINE · 8 MIN

Same sentence. Say it so they remember it.

Two pauses. Three strong words.

What I learned is that **creating** an environment / that makes people take action **easily** / is much more important than just **forcing** them to do it.

ONE SMALL FIX ~~the environment~~ → **an environment**

어떤 정해진 환경이 아니라 , 그런 환경 하나를 만든다는 뜻이라서요 .

/ = stop for one breath. **Gold** = say it a little stronger.

THREE TIMES

1. Read it from the screen
2. Look up, say it again
3. Say it to Brian

TAKE 2 · 8 MIN

Forty-five seconds. No screen.

Look at Brian, not at the slide. Use the two cards you picked.

TAKE 2 · WHAT YOU SAID

ONE THING THAT GOT BETTER

WHAT THEY'D ASK NEXT · 12 MIN

After your answer.

Short answers are fine. Brian keeps asking.

1	**What would you change if you did it again?**	I would change the place where recycle bin is located. Change it to the playground. To make it feels more like basketball game.
2	**Could this work outside a school — in a city?**	If many people participate this, it may become part of the culture.
3	**You said forcing doesn't work. Do rules ever work?**	I think rules would work. That is because most people would follow the fules
4	**If you had one more month, what would you measure?**	The number of waste that have been recycled.
5	**“...an environment that makes people act easily.” What do you mean by that?**	Recycling is very complicated procedure so it is hard to take action even though we have an awareness.

NEXT HOMEWORK

After finals is fine.

Same answer, one more video — 45 seconds.

MAKE SURE YOU SAY

1. The number — 40 students
2. The two cards you picked today
3. The last line, with two pauses

AND THE ONE FROM LAST TIME

“Why do you want to be an environmental diplomat?” — 30 seconds, video. Send both after your finals.
