W A R M - U P

Back to Business

Catching up first — then we head to the factory floor.

🛬 Settling back in?

How's Jakarta treating you since you got back? Sleep schedule recovered?

🏭 How's the factory?

Anything new since you returned — orders, the team, your father?

👟 This month's work

What's keeping you busy these days — which products, which buyers?

FREE TALK

“Walk Me Through Your Factory”

Pretend I know nothing about shoes. Start from the beginning — just talk.

🎙️ **Brian asks:** **“So what does your company actually make — and how does it get made?”**

You might cover:

The products
Insoles, outsoles — what exactly, and for whom?

The process
From raw material to finished part — what happens, in what order?

The people
Who does what — you, your father, the team?

The hard part
What's the trickiest thing to get right?

Brian listens — and takes notes on where you get stuck. That's our shopping list. 📝

TEN EXPRESSIONS

Explaining What We Make

The same story — told like a pro. In the order a factory story flows.

🏷️ Who we are

☐ **We specialize in ~** ~을 전문으로 하다
"We specialize in insoles and outsoles."

⚙️ The process

☐ **The way it works is ~** 과정은 이렇다
"The way it works is, we start with the mold."

☐ **from start to finish** 처음부터 끝까지
"We handle production from start to finish."

☐ **turn ~ into ~** ~을 ~으로 만들다
"We turn raw rubber into finished outsoles."

☐ **at this stage** 이 단계에서는
"At this stage, everything is checked by hand."

✅ Quality

☐ **meet the specs** (요구) 사양을 맞추다
"Everything has to meet Autry's specs."

☐ **up to standard** 기준에 부합하는
"Nothing ships unless it's up to standard."

📦 Schedule & problems

☐ **keep up with demand** 수요를 따라가다
"Some months it's hard to keep up with demand."

☐ **stay on schedule** 일정을 지키다
"We do everything to stay on schedule."

☐ **iron out** (문제를) 매끄럽게 해결하다
"We're still ironing out a few issues with the new line."

SAY IT AGAIN

Buyer Mode 🤝

Same factory, same story — but now I'm a buyer from an Italian brand. Sell it to me.

🎙️ **The buyer asks:** **“Before we talk numbers — tell me about your factory. Why should we trust you with our soles?”**

Flow guide

Who we are (specialize) → How we work (the way it works · start to finish · turn into · at this stage) → Quality (specs · standard) → Reliability (demand · schedule · iron out)

Follow-up jabs: “What if we double the order?” · “How do you handle defects?” · “Can you hit our deadline?”

This isn't practice — this is your actual pitch. Keep it. ✍️
