Let's Ease In

Before we dive in — let's just chat for a bit. How's everything going?

Last class was Thursday — so, how was your weekend? What did you get up to?

How was the wedding convention you went to? What was it like?

What stood out the most? Anything that really left an impression?

Let's Polish Last Time's Story

Last class, you told me how you got into IT. This time, tell it again — a little more polished.

The Story

What got you into the world of IT? Walk me through it again — smoother and more confident this time.

Try to weave in last time's expressions:

- › get into · set out to · be drawn to · spark an interest
- › pick up · get the hang of · run into · work through
- › stick with · pay off

Tip: Smoother delivery, clearer order, and richer detail than last time.

A Project You're Proud Of

This time, you lead. Take a few minutes and walk me through it.

The Topic

Tell me about a project you're proud of — what it was, your role, the hard parts, and how it turned out.

A few things you might cover:

- › What was the project, and why did it matter?
- › What was your role — what did you take on?
- › What problems did you hit, and how did you work them out?
- › How did it turn out? What were you most proud of?
