ROUND 2

On Your Own

This time there's no toolbox. Answer first — then we look back together.

How it works

- 1) A question appears — answer it with whatever English you have. No hints.
- 2) When you finish, expressions appear — “Which ones could I have used?”
- 3) Say the same answer once more — this time with one of them inside.

Round 1 was telling the story you prepared. This is the angle you didn't prepare — that's what a real interview feels like.

Before We Finish

We made it all the way through this time.

Which one was hardest?

Of all ten questions — where did you get stuck, and what kind of stuck was it?

One more time

Take that question again — right now, with the expressions we just reviewed.

Next time

We'll learn the tools for those stuck moments — buying time, structuring an answer, starting over mid-sentence.

Ten questions, two rounds. That was a real interview, Sungmin. 🙌
